Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-105]

LAMBERT BROTHERS

Lambert Brothers, New Orleans, Louisiana, is a partnership engaged in distributing and jobbing electrical supplies and other items. On April 20, 1942, the company applied an A-10 preference rating under Preference Rating Order P-100 to a purchase order for 5,000 feet of 14-2 Flex copper wire and accepted deliveries on this order on April 25, 1942, May 11, 1942 and May 26, 1942. However, at the time this order was placed, the company had no authority to apply the A-10 preference rating since it was a supplier and its assignment of the A-10 preference rating was unsupported by purchase orders rated under Preference Rating Order P-100. Accordingly, its application of the Preference Rating constituted a violation of Preference Rating Order P-100.

The company, on March 16, 1942, applied an A-10 preference rating under Preference Rating Order P-100 to its purchase order for 12,000 feet of D18CFC soft brown copper wire and accepted deliveries of 11,900 feet. At the time this order was placed, the company was entitled to extend this preference rating only for 490 feet and, therefore, the application of the preference rating to an order for 12,000 feet constituted a violation of Preference Rating Order P-100.

These violations of Preference Rating Order P-100 have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing facts,

It is hereby ordered:

§ 1010.105 Suspension Order S-105.

(a) Lambert Brothers, New Orleans, Louisiana, its successors and assigns, are prohibited from accepting delivery of, receiving, processing or fabricating any copper, copper base alloy, copper scrap and copper products except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Lambert Brothers, its successors and assigns from any restriction, prohibition or provision contained in any other order of regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on October 9, 1942, and shall expire on January 9, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 7th day of October 1942.

Director General for Operations.

PART 3093—GOLD MINING

[Limitation Order L-208]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export which are used in the maintenance and operation of gold mines; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3093.1 Limitation Order L-208—(a) Definitions. For the purposes of this order, "nonessential mine" means any mining enterprise in which gold is produced, whether lode or placer, located in the United States, its territories or possessions, unless the operator of such mining enterprise is the holder of a serial number for such enterprise which has been issued under Preference Rating Order P-56.

(b) Restrictions upon production. (1) On and after the issuance date of this order, each operator of a nonessential mine shall immediately take all such steps as may be necessary to close down, and shall close down, in the shortest possible time, the operations of such mine.

(2) In no event on or after 7 days from the issuance date of this order shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to break any new ore or to proceed with any development work or

¹ 7 F.R. 5010, 5081, 6256, 6931.

any new operations in or about such mine.

(3) In no event on or after 60 days from the issuance date of this order shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to remove any ore or waste from such mine, either above or below ground, or to conduct any other operations in or about such mine, except to the minimum amount necessary to maintain its buildings, machinery, and equipment in repair, and its access and development workings safe and accessible.

(4) The provisions of this order shall not apply to any lode mine which produced 1200 tons or less of commercial ore in the year 1941, provided the rate of production of such mine, after the issuance date of this order, shall not exceed 100 tons per month, nor to any placer mine which treated less than 1000 cubic yards of material in the year 1941, provided that the rate of treatment of such placer mine, after the issuance date of this order, shall not exceed 100 cubic yards per month.

(5) Nothing contained in this order shall limit or prohibit the use or operation of the mill, machine shop, or other facilities of a nonessential mine in the manufacture of articles to be delivered pursuant to orders bearing a preference rating of A-1-k or higher, or in milling ores for the holder of a serial number under Preference Rating Order P-56.

(c) *Restrictions on application of preference ratings.* No person shall apply any preference rating, whether heretofore or hereafter assigned, to acquire any material or equipment for consumption or use in the operation, maintenance, or repair of a nonessential mine, except with the express permission of the Director General for Operations issued after application made to the Mining Branch, War Production Board.

(d) *Assignment of preference ratings.* The Director General for Operations, upon receiving an application in accordance with paragraph (c) above, may assign such preference ratings as may be required to obtain the minimum amount of material necessary to maintain such nonessential mine on the basis set forth in paragraph (b) (3) above.

(e) *Records.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventory, acquisition, consumption, and use of materials, and production of ore.

(f) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Communications.* All reports to be filed, appeals, and other communications concerning this order should be addressed to: War Production Board, Mining Branch, Washington, D. C., Ref.: L-208.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, by letter, in triplicate, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(k) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for bonds of the United States, designated 2 percent Treasury Bonds of 1950-52. At the same time the Secretary of the Treasury is inviting subscriptions for an

additional amount of Treasury Notes of Series B-1946 under Department Circular No. 699. The aggregate amount of both issues will be \$4,000,000,000, or thereabouts. The amount of bonds to be issued hereunder will be determined by the relation which the total subscriptions for the bonds bear to the total subscriptions received for both the bonds and the notes.

II. DESCRIPTION OF BONDS

1. The bonds will be dated October 19, 1942, and will bear interest from that date at the rate of 2 percent per annum, payable on a semiannual basis on March 15 and September 15 in each year until the principal amount becomes payable. They will mature March 15, 1952, but may be redeemed at the option of the United States on and after March 15, 1950, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds shall be subject to all Federal taxes, now or hereafter imposed. The bonds shall be subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys, but will not bear the circulation privilege and will not be entitled to any privilege of conversion.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of \$100, \$500, \$1,000, \$5,000, \$10,000 and \$100,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. SUBSCRIPTION AND ALLOTMENT

1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Subscribers must agree not to sell or otherwise dispose of their subscriptions, or of the securities which may be allotted thereon, prior to the closing of the subscription books. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions from banks and

trust companies for their own account will be received without deposit. Subscriptions from all others must be accompanied by payment of 5 percent of the amount of bonds applied for.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, and within the amount of the offering, subscriptions for amounts up to and including \$25,000 from banks which accept demand deposits, and subscriptions in any amount from all other subscribers, will be allotted in full; subscriptions for amounts over \$25,000 from banks which accept demand deposits will be allotted on an equal percentage basis, to be publicly announced. Allotment notices will be sent out promptly upon allotment.

IV. PAYMENT

1. Payment at par and accrued interest, if any, for bonds allotted hereunder must be made or completed on or before October 19, 1942, or on later allotment. In every case where payment is not so completed, the payment with application up to 5 percent of the amount of bonds applied for shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depository will be permitted to make payment by credit for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

OFFICE OF PRICE ADMINISTRATION.

[Suspension Order 139]

JOHN TEASLEY

ORDER RESTRICTING TRANSACTIONS

John Teasley, dealer operating dealer outlet known as City Service Station, Canton, Georgia, herein called respondent, is regularly engaged in the business of transferring gasoline directly to consumers and subject to gasoline rationing regulations issued by the Office of Price Administration. There was duly served on respondent a notice of specific charges of violation of the Emergency Gasoline Rationing Regulations and a notice of hearing thereon. Respondent has waived the holding of said hearing and has stipulated certain facts with the

Office of Price Administration. Upon consideration of the facts so stipulated, it is hereby determined:

That respondent has violated the Emergency Gasoline Rationing Regulations in that on July 6, 1942, at the dealer outlet above described, he sold and transferred to one Charles Glenn Cole, a consumer, three gallons of gasoline, said transfer being made into the fuel tank of an automobile clearly identifiable as a private passenger vehicle without the exhibition of any gasoline rationing card Class X or the cancellation of any unit of any gasoline rationing card Class A or B.

That respondent has violated the Emergency Gasoline Rationing Regulations in that respondent on the 6th day of July 1942, sold and transferred to one Charles Glenn Cole, a consumer, sixteen gallons of gasoline in containers for highway use by said consumer in an automobile clearly identifiable as a private passenger vehicle, said transfer being made without the exhibition of any gasoline rationing card class X or the cancellation of any unit of any gasoline rationing card Clas A or B.

Because of the great scarcity and critical importance of gasoline in the Georgia area, violations of the Emergency Gasoline Rationing Regulations necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to national defense. It further appears to the Deputy Administrator from the matters stipulated, that violations of the Gasoline Rationing Regulations by respondent are likely unless appropriate administrative action be taken.

It is therefore ordered:

(a) During the period in which this suspension order shall be in effect:

(1) Respondent shall accept no deliveries or transfers of, nor in any manner directly or indirectly, receive from any source any gasoline at or for the above described dealer outlet; and

(2) No person, firm or corporation shall sell, deliver or in any manner directly or indirectly transfer any gasoline to respondent at or for the above described dealer outlet.

(b) Any terms used in this order that are defined in the Emergency Gasoline Rationing Regulations shall have the meaning therein given them.

(c) This suspension order shall become effective 12:01 A. M. October 8, 1942, and unless sooner terminated, shall expire 12:01 A. M. November 7, 1942.

[Certificate 18]

PLAN FOR ORGANIZATION OF AN IMPORTERS GROUP

THE ATTORNEY GENERAL: Pursuant to the provisions of section 12 of Public Law No. 603, approved June 11, 1942, I submit a plan of the Board of Economic Warfare for the organization of an importers group, to be known as Emergency Group for Foreign Vegetable Oils, Fats and Oil-Bearing Materials, to handle and service foreign purchases of such fats, oils and materials by the Commodity Credit Corporation.

FEDERAL REGISTER, Friday, October 9, 1942

I hereby approve said plan for the purposes of section 12 of Public Law No. 603, approved June 11, 1942, and after consultation with you, I hereby find and so certify to you that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with such plan, is requisite to the prosecution of the war.

DONALD M. NELSON,
Chairman.

OCTOBER 2, 1942.

Plan for the organization of an importers group, to be known as "Emergency Group for Foreign Vegetable Oils, Fats and Oil-Bearing Materials" to handle and service foreign purchases of such fats, oils and materials by the Commodity Credit Corporation.

Purpose of the Group. The Group will be organized for the purpose of providing, for a fixed fee, all of the necessary and customary services incident to the importation into the United States, and the servicing thereafter, of all foreign vegetable oils, fats and oil-bearing materials purchased by Commodity Credit Corporation pursuant to directives issued by the Board of Economic Warfare. Commodity Credit Corporation will negotiate and make all purchases and the Group will have no responsibility and exercise no function relative to purchases. The Group will function only as to servicing and handling after purchases are made.

Organization of the Group. The Group will function (a) through a Management Committee composed of representatives of five members elected by a majority of all the members, whose duty it shall be, subject to specified controls to be exercised by Commodity Credit Corporation and the Board of Economic Warfare, to manage and coordinate all of the activities of the Group, and (b) through various specialized commodity committees. These latter committees will be composed of representatives of every member experienced in handling the commodity with which the committee is concerned, will generally be under the supervision and control of the Board of Economic Warfare and the Commodity Credit Corporation; and will have the duty of furnishing expert advice relative to, and expediting, the services to be performed in connection with the importation of commodities purchased by Commodity Credit Corporation. Commodity Credit Corporation will compensate the Group for services rendered by it, through its officers and employees, in accordance with a schedule of fees fixed in an exclusive agency contract between Commodity Credit Corporation and the Group. Income of the Group, after payment of administrative expenses and establishment of a reserve, will, from time to time, be distributed by the Group among its members in accordance with a base period formula.

Membership of the group. Membership in the Group will be open to all individuals, partnerships, firms, and corporations who are "eligible importers". Restrictions on eligibility will be provided as to nationals of any country deemed by the Board of Economic Warfare to be unfriendly to the United States,

Only those shall be deemed "eligible importers" who effect sales of vegetable oils, fats and oil-bearing materials of foreign origin before they have cleared customs, and who either: (a) represent or negotiate directly with sellers in a foreign market, or with foreign sellers' representatives wherever domiciled, as agents for sale to consumers, or other buyers, in the United States or Canada on a fixed fee or commission basis for effecting such sales; or (b) purchase directly from sellers, or from foreign sellers' representatives wherever domiciled, in a foreign market for their own account or for subsequent resale.

All applications for membership must be submitted within forty-five (45) days after the applicant has received a written invitation to join the Group, or within forty-five (45) days after the release of such an invitation published in representative trade journals and general newspapers. Similar publicity will be given, and invitations to join will be sent to all eligible importers, not then members, prior to the expiration date of any contract with Commodity Credit Corporation which is to be renewed or prior to entering into a new contract. Applications for membership, pursuant to such an invitation, must be received at least forty-five (45) days after the issuance of such invitation and publicity.

Commodity Credit Corporation and the Board of Economic Warfare will take all necessary and proper steps to arrange for the initial issuance of written invitations to join and initial publicity as to the right of membership. They will initially approve or reject applications for membership and will call the organizational meeting of the Group.

Each member will advance One Hundred Dollars (\$100) to the Group to establish a revolving fund from which the Group may defray current expenses.

After organization, the right to membership of any applicant will be subject to review by the Board of Economic Warfare and the Commodity Credit Corporation.

Duration of the group. The Group will not function except pursuant to contracts in effect with the Commodity Credit Corporation, or as directed by the Board of Economic Warfare should no such contract be in existence. In no event shall the Group continue to operate as such after the expiration of six months after the termination of the present national emergency.

PROGRAM FOR VEGETABLE OIL SEEDS

THE ATTORNEY GENERAL: Pursuant to section 12 of Public Law No. 603, approved June 11, 1942, I submit to you a price-support, processing, and distribution program to be carried out by the Commodity Credit Corporation with respect to domestic vegetable oil seeds and products thereof. This program and the contracts offered in implementation thereof are more fully described in the annexed

memorandum of Mr. J. B. Hutson, President, Commodity Credit Corporation, dated October 2, 1942.

I hereby approve this program for the purposes of section 12 of Public Law No. 603, approved June 11, 1942, and after consultation with you, I hereby find and so certify to you that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with such program, is requisite to the prosecution of the war.

DONALD M. NELSON,
Chairman.

OCTOBER 6, 1942.

Price-support, processing, and distribution program of Commodity Credit Corporation for domestic vegetable oil seeds and products thereof.

The demands of the war program have very greatly increased the total requirements for domestic vegetable oils. Not only have domestic requirements for oil been materially increased, but foreign sources of supply have been cut off. In order to provide for these increased requirements, the Department of Agriculture, early this year, initiated action through price assurances to producers to stimulate production of domestic oil-bearing seeds. As a result of this action, there are now on hand or in prospect supplies of soybeans, cottonseed, peanuts, and flaxseed aggregating approximately 50 percent greater than normal stocks.

With a view to assuring the conversion into oil of these greatly expanded supplies and the orderly movement of the oil and other products of the seed, the Commodity Credit Corporation, with the approval of the President of the United States, has undertaken a price-support, processing, and distribution program for soybeans, cottonseed, peanuts, and flaxseed of the 1942 domestic crop. This program has thus far involved the preparation and submission to all processors of seed and all refiners of crude oil derived therefrom, of the following forms of contract, which are on file in and available for public inspection at the offices of Commodity Credit Corporation.

Processor Contract—1942 Cottonseed Program.

Processor Contract, Form A—1942 Soybean Program.

Processor Contract, Form B—1942 Soybean Program.

Processor Contract, Cotton States—1942 Soybean Program.

Processor Contract, Pacific Coast States—1942 Soybean Program.

Crusher Contract—1942 Peanut Crushing Program.

Processor Contract—1942 Flaxseed Program.
Refiner Contract—1942 Vegetable Oils Program.

The principal provisions of these contracts may be summarized as follows: The processors, except in the case of peanuts, agree to pay not less than specified prices for the seed. The processors also agree to sell the cake and meal at not less than specified prices and, except in the case of linseed oil, to sell oil only at a specified price. In addition, it is reserved to the Commodity Credit Corporation to fix, within a defined range, the maximum trade sale price of cotton-

seed and peanut meal. The Corporation agrees to purchase all meal and oil offered to it, except in the case of linseed meal and oil, the price payable for the meal being somewhat lower than that at which trade sales are permitted. There are also provisions under which loans will be made by the Commodity Credit Corporation to processors upon cottonseed and peanut meal, flaxseed, and linseed oil.

All but one of the forms of contract applicable to soybeans commit the Commodity Credit Corporation to purchase soybeans from the processor and to resell the beans to the processor at a reduced price, the reduction to be dependent upon the relative efficiency of the

processor's facilities. The cottonseed contract also commits the Corporation to purchase at a specified price all cotton linters not otherwise allocated by the War Production Board.

Finally, the Refiner Contract provides for the purchase by refiners, at specified prices and to the extent of their capacity, of crude soybean, cottonseed, and peanut oil offered them by processors having contracts with the Corporation. In addition, the Corporation agrees to purchase such oil from the refiners at the original purchase price and to resell the oil to the refiners for use in edible products at one-half cent per pound below that price. The refiners agree to sell refined oils to the Corporation at specified differentials over crude prices.

The contracts referred to, in my opinion, will have the effect of assuring the greatest possible production of oil, meal and linters and appear to be the most practicable means of attaining this objective. We believe the vegetable seed and oil program is essential to the war effort and that certification by the Chairman of the War Production Board, pursuant to section 12 of Public Law No. 603, approved June 11, 1942, is necessary in order to secure the widest possible participation in the program.

J. B. HUTSON,
President,

Commodity Credit Corporation.
